**Publish Conference Proceedings**

Written by Administrator
Monday, 10 January 2011 04:43 - Last Updated Tuesday, 28 June 2016 23:10

Foundation of Computer Science (FCS) strives to publish and preserve the research works of millions of scientists and researchers.

FCS requests conference organizers to publish their conference proceedings with FCS journals for better reach and citations. All articles published with FCS journals are indexed with world-class indexes such as Google Scholar, Informatics, ProQuest CSA Technology Research Database, EBSCO, NASA ADS,  ScientificCommons (Univ. of St Gallens), University of Karlsruhe, Germany, Georgetown University Library et. al.

The conference organizers are requested to provide the manuscripts in DOC format to the editorial boards of the respective journals. The format of the manuscript must comply with the template of the prescribed journal. The conference organizers are also requested to submit the review comments and the list of reviewers along with the set of manuscripts. The manuscripts must be categorized according to the topics addressed by them.

   This is a free-of-cost service to the scientific community furthering our mission to preserve and disseminate scientific knowledge. For further details, please feel free to contact council@fcs.org
